Work Experience

Ixonos
01/2008 → I work as a software consultant in a variety of projects. Typically my duties have included software development, -design and testing (especially test automation).

Nokia Siemens Networks
05/2007 – 12/2007 In NSN I worked as a system verification engineer for Open EMS Suite. My main job was to develop test applications for this platform in JSP- and J2EE/Netbeans –environments.

HUT / SoberIT
09/2006 – 03/2007 I worked as a course assistant at the Software Business and Engineering institute:

- T-76.4602 *Software development methods*
- T-76.5615 *Requirements engineering*

HUT / SoberIT
06/2006 – 08/2006 I was part of a research team – working as a software developer. My primary tasks were to develop an application designed for creating different software configurations and to create a user interface for it. The application was implemented by using Java and SWT/JFace in Eclipse PDE (Plug-in Development Environment).

We used agile software development methods to guide our development process. I was also responsible for creating acceptance tests for the new functionalities using FitNesse + FIT (Framework for Integrated Tests).

Orion Pharma ITS, Orion
06/2005 – 08/2005 I worked in IT-support. My responsibilities included customer support, guidance, installation and maintenance of workstations and peripherals, and solving service requests.

Securitas
07/2003 – 12/2004 I worked as a security guard.

Skills

Languages: Finnish (native speaker)
English (very good)
Swedish (basics)
German (basics)

Information technology:

Operating Systems:

Microsoft Windows 98/2000/XP, DOS, Linux, Macintosh (basics)

Programming- and description languages, and databases:

Java EE, JSP, PHP, PL/SQL, C# (basics), C/C++ (basics), Scheme (basics), XSLT 2.0, XML, HTML, CSS, JavaScript, JSON

Software frameworks and products:

Spring Framework, Hibernate, Zend Framework, Swing, SWT, JAXB, jQuery

Alfresco WCM, Apache Httpd, Liferay Portal EE, OpenCms, Talend Open Studio (ETL modeling)

Test tools and environments:

TestLink, Bugzilla, JIRA & GreenHopper, FIT + FitNesse, JUnit, TestNG, DbUnit, Selenium, Sahi, JMeter, TeamCity, CruiseControl, Apache Ant, Maven

Hardware:

I've worked with PCs and peripherals for over 15 years.

Other hobbies:

My hobbies include jogging, athletics and judo. I started judo when I was 6 years old and I've practiced it quite persistently being selected for the representative team of Finnish Judo Association. Competition achievements worth to mention are e.g. medals in Finnish Championships (age groups A-19 and B-17) and gold/silver medals in ne-waza (men).

Certificates

Programming: Sun Certified Programmer for the Java Platform, Standard Edition 6.0 (310-065), 01/2009

Courses

Programming: IBM FileNet P8 4.5 Solution Development (Dr. Sebastian Goeser), 02/2009

Misc.

Military service: II/2002 Military Police Corp., ViestiR Riihimäki

Driving licence: B

Other

accomplishments: Security guard's licence (vartijakortti), Hot work licence, First Aid EA1
